Instructions

Operation Menu

Important Note

Do not fill heater.
Instead use glass
dishes provided.

Buttons

- Press both UP and DOWN buttons to turn the unit on or off.
- UP arrow raises temperature.
- DOWN arrow lowers temperature.
- Pressing and holding DOWN button will reload previous temperature setting.
- Pressing and Holding UP button will turn on/off audible beep.

LED Indicators

- LED 1 through 7 indicate temperature settings.
- LED IDLE, blue: indicates the device staying on in idle state, not heating.
- LED HEAT, red: indicates the device is heating.
- LED PWR LOW: red LED, indicates the battery is low and needs to be charged.
- LED CHARGED: Green LED, will be flashing in the charging process, it will turn to solid green once the battery is charged.

Operation

Step 1:

Press and hold both the UP and DOWN buttons at least 1 second until unit turns on. The device will stay in idle state, (LED IDLE, blue is on) until the temperature is adjusted using the UP button.

Step 2:

Press UP button to the desired setting, the LED HEAT, red, will flash indicating the unit is warming. The LED lights 1 to 7 indicate the temperature setting.

Step 3:

To turn off device press both UP and DOWN buttons.

Note: To conserve battery charge the unit automatically turns off after running 12 minutes. If you wish to run the unit longer simply turn it back on. After 12 minutes the unit will again turn off, (Auto shut off).

Charging

When Battery is low the red LED_PWR_LOW glows solid.

Plug in the CHARGER ADAPTER (only the supplied adapter can be used), the LED CHRГ, green, flashes to indicate charging.

When battery is full, the LED_CHRG_DONE will glow solid.

Note: Unit cannot be used when plugged into charger. *An optional wall charger/adapter is available if you wish to use the device while plugged in and charging. **19V charger also available.

A few examples of the many possibilities for the Solo multi purpose heater

Essential Oils

Place a very small drop on a piece of cotton baton, insert cotton in diffuser tube, set to desired setting, insert diffuser tube in heater.

Potpourri, Botanicals, Flowers

The dish or diffuser can be used depending on materials. Fill dish or lightly pack material in diffuser, set to desired setting, insert in heater.

Scented beads and waxes, flameless candles and more

Shown with lavender scented beads, flameless citronella wax, and scent stones

Warranty

Lifetime Warranty on Heater, two years parts & labor against defects in material or workmanship, one year on rechargeable lithium battery. Glass is not covered under warranty. Retain proof of purchase for warranty. For assistance contact Customer Service at arizertech@gmail.com, 888-291-0521

Cautions and Tips

The glass dishes get HOT, either turn temperature down or turn unit off and wait 2 minutes to cool before touching. Never place a hot dish on a wooden/fabric/plastic or other non heat safe surface.

Never drop or tap any glass pieces on hard surfaces, this will cause cracking/breaking, even the strongest of glass will crack/break, handle with care.

Do not expose hot glass parts to cold water or extreme temperature change as this will result in cracking/breaking. Allow for a "cool down" period before touching/cleaning each part.

Experiment with the different temperature settings for each product used, set to your own preference. Different factors will result in different temperature settings, such as moisture content, potency of each essential ingredient etc.

Small amounts are recommended to ensure proper release of the herbal essences. For essential oils place one small drop on a cotton insert.

Do not drop the unit as it is an electrical unit containing both glass and delicate circuitry that could break damage the unit. Do not operate if damaged.

Keep out of reach/use of children/minors.

Do not leave the unit turned on and left unattended.

This product is not licensed as a medical device, do not use unit for other than its intended use.

Do not operate unit if damaged in any manner. Arizer Tech will not assume any liability for injury or damages resulting from the use or miss-use of this device.

To protect/prevent against electric shock/fire never immerse or operate the product in or around any water/liquids. Do not stick or pour anything down inside the unit.

Do not store/operate/expose the unit and contents to extreme temperatures.

Do not open up the unit, doing so may cause electric shock and voids all Warranties. The Warranty does not cover units damaged by dropping, tampering, unauthorized service performed or attempted, modifying the unit, misuse or abuse
